

# HEDERA SENTIENT NFT LAUNCHPAD TERMS AND CONDITIONS

The following terms and conditions ("Terms") govern your use of the Hedera Sentient Launchpad (from now on referred as "THSL") with URL [hederasentient.com](https://hederasentient.com), to participate in the purchase and mint of Non-Fungible Tokens ("NFTs"). Please read these Terms carefully before accessing or using THSL. By accessing or using THSL, you agree to be bound by these Terms. If you do not agree with these Terms, you should not access or use THSL.

## TERMS AND CONDITIONS

### Launchpad Overview

THSL is a platform that enables users to participate in the purchase of NFTs. THSL does not endorse or guarantee the authenticity, quality, or value of any NFTs purchased through THSL.

### Eligibility

To participate in THSL, you must be at least 18 years old or have reached the age of majority in your jurisdiction, whichever is greater. You are responsible for ensuring that your use of THSL is in compliance with all applicable laws and regulations.

### NFT Purchases

By participating in THSL, you acknowledge that NFTs are unique digital assets that may have varying levels of value. You understand that the price of NFTs may fluctuate and that there is no guarantee that you will be able to sell or trade your NFT for the price you paid.

### Launchpad Fees

THSL may charge a fee for the purchase of NFTs, which will be disclosed prior to purchase. THSL reserves the right to change its fees at any time, and any such changes will be posted on THSL.

### NFT Ownership

By purchasing an NFT through THSL, you own the NFT and have the right to display, sell, or trade the NFT as you see fit. THSL is not responsible for any disputes that arise between NFT owners.

## Disclaimer of Warranties

THSL is provided on an "as is" and "as available" basis. THSL makes no representations or warranties of any kind, express or implied, as to the operation of THSL or the information, content, materials, or NFTs included on THSL. To the fullest extent permissible by applicable law, THSL disclaims all warranties, express or implied, including but not limited to implied warranties of merchantability and fitness for a particular purpose.

## Limitation of Liability

THSL shall not be liable for any direct, indirect, incidental, special, or consequential damages arising out of or relating to these Terms or the use of THSL. In jurisdictions that do not allow the exclusion or limitation of liability for consequential or incidental damages, THSL's liability is limited to the greatest extent permitted by law.

## Indemnification

You agree to indemnify, defend, and hold harmless THSL and its affiliates, directors, officers, employees, and agents from and against any and all claims, liabilities, damages, losses, costs, expenses, or fees (including reasonable attorneys' fees) arising out of or relating to your use of THSL.

## Changes to Terms

THSL reserves the right to modify these Terms at any time without prior notice. Your continued use of THSL after such modifications will constitute your acknowledgment of the modified Terms and agreement to abide and be bound by the modified Terms.

## Governing Law and Dispute Resolution

These Terms and your use of THSL shall be governed by and construed in accordance with the laws of the jurisdiction in which THSL is operated (European Union). Any disputes arising out of or relating to these Terms or THSL shall be resolved through binding arbitration in accordance with the rules of the European Union Law.

## DISCLAIMER

Non-Fungible Tokens (NFTs) are digital assets that represent ownership of a unique item, file, or piece of content, such as artwork, music, videos, or virtual goods, on the blockchain. NFTs have gained popularity as a way to buy, sell, and trade digital assets in a decentralized manner.

However, it's important to understand that investing in NFTs comes with risks, and you may lose money. Here are some key points to consider:

1. **Value is Subjective:** The value of an NFT is determined by market demand and can fluctuate widely. What may be considered valuable today may not hold the same value in the future.
2. **Lack of Regulation:** NFTs are not regulated by any government or financial institution, and there are no established rules or standards governing their creation, sale, or usage. This lack of regulation can result in potential scams, fraudulent activities, or disputes with little to no recourse.
3. **Technical Risks:** NFTs are based on blockchain technology, which is complex and can be subject to technical issues, such as network congestion, transaction delays, or smart contract vulnerabilities. These technical risks can affect the usability and value of NFTs.
4. **Intellectual Property Rights:** Owning an NFT does not necessarily grant ownership of the underlying content or intellectual property rights. The creator of the NFT may retain rights to the content, and there may be legal issues surrounding copyright infringement or licensing.
5. **High Transaction Fees:** Purchasing or trading NFTs often involves transaction fees, which can be high during periods of high demand, resulting in additional costs that may affect your overall investment.
6. **Market Volatility:** The NFT market is relatively new and can be highly speculative, with prices that can be subject to rapid and unpredictable changes. It's important to be aware of the risks associated with investing in a volatile market.

It's crucial to do thorough research, understand the risks, and only invest what you can afford to lose when dealing with NFTs. It's also recommended to seek professional financial advice before making any investment decisions. Be cautious and exercise due diligence to protect yourself when participating in the NFT market.
